

# WCJ Pilgrim Wire's exclusive Smart Pull Wire System

Use for maximum capacity and profitability in your stitching wire operation.

WCJ Pilgrim Wire offers proven increased production, cost savings, and safest high capacity wire stitching system in the industry.

WCJ Pilgrim Wire brings the **Smart Pull Wire System** along with the largest stitching wire spools in the industry 800lb+. The highest capacity stitching wire spools, this system will increase production, add safety to your bindery, and bring additional cost savings.

## Smart Pull Wire System Highlights

- Utilizes 800lb. or 1600lb. stitching wire spool increasing efficiency while reducing the amount of downtime for wire changeovers.
- Our wire winding technique produces straighter wire that is easier on stitching heads and equipment which reduces parts and maintenance costs.
- Designed for all stitching operations.
- Does not require costly de-spoolers, dollies or lifting devices and requires no heavy manual lifting.
- See how much money you will save with the **Smart Pull Wire System** at [www.wcjwire.com/savings.com](http://www.wcjwire.com/savings.com)
- System increases productivity and saves money.

WCJ Pilgrim Wire's exclusive **Smart Pull Wire System** allows the stitching wire spool to stay skidded while the operator/user positions the trouble-free **Smart Pull Wire System**.

## Increase productivity by reducing downtime

WCJ Pilgrim Smart Pull contains 800 lbs. of wire. That is equal to nearly 20 standard 40 lb. spools and more than 12 standard 70 lb. coils. Spend more time stitching and less time changing spools and equipment.

No lengthy lead times with worldwide stocking we have the ability to get you wire when you need it!

WCJ Pilgrim Wire brings the **Smart Pull Wire System** to you with proven success in the fastest paced and most rigorous stitching wire applications in the industry. There are no loose parts to allow tangling and nesting of wire, no awkward wire delivery systems, and no cumbersome drum to throw away creating waste at your facility. Get proven performance from a proven leader in the stitching wire business.

**NO HEAVY  
MANUAL  
LIFTING**
